Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claim 1 is pending in this application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. **Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Iyer et al. (US Patent # 7,307,995 B1, hereinafter Iyer).**

4. With respect to claim 1, Iyer discloses a method comprising the steps of:
providing a fibre channel frame (column 10, lines 57-59); receiving said fibre channel frame using a fibre channel interface (column 10, lines 55-57); transforming said fibre channel frame to an FCoE frame (column 1, lines 57-69); said FCoE frame including external data (column 10, lines 51-63); and transmitting said FCoE frame using an Ethernet interface (column 10, lines 59-63).

Response to Arguments

5. Applicant's arguments, with regards to claim 1, filed 05/09/2008 have been fully considered by they are not persuasive.
6. On page 4 of the Applicant's Response, applicants argue that the amended claim 1 of the limitation "said FCoE frame including external data" is not found in the teachings of Iyer.

The Examiner respectfully disagrees with Applicant's arguments because Iyer in column 10, lines 59-62, discloses "Such encapsulation allows a Fibre Channel frame to be routed to another Fibre Channel Capable network node using Ethernet, ATM, or other network protocol." Since the Fibre Channel frame is to be routed to another network node, it is inherent that there is other/external data that informs the frame's destination.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
